Createspace, United States, 2014. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.For countless millennia, relatedness has been the fulcrum of world politics, economics, society, psychology and technology. In this write-up, I demonstrate why and how globalization (a form of relatedness) is being replaced by connectedness as manifest in the way humanity organizes itself politically, economically, socially and emotionally. The world is herein best understood in terms of spatial position (space) and non-spatial relationships. Spatial dimensions simply refer to physical objects, geography and location. Non-spatial dimensions connect us with the rest of the universe in non-physical realms. Non-spatial dimensions include gravity, electromagnetism, strong nuclear interaction, weak nuclear interaction, dark matter, dark energy, mental faculties, senses, emotions, time, life and death. This is on the understanding that, with no discernible edge to the cosmos, the universe is extended infinitely. Therefore, the universe is an infinitely extended point. In an infinite universe, every point (location) in non-Euclidean space can be regarded as the center of the universe. Humans and other life-forms evolve, practice and learn to manipulate phenomena (physical and non-physical phenomena) to stay alive. Human socio-political and economic configurations and the...
