This complete training program from Adobe Press and video2brain combines over 21 hours of exceptional video training with a full-color 120-page guide to teach you the fundamentals of Adobe Photoshop CS5 as well as the basic principles of image editing. Trainers Kelly McCathran, Ted LoCascio, and Scott Citron show you how to use essential commands and tools to retouch pictures, combine type with images, and create dramatic visual effects. As with all titles in the Learn by Video series, the project files used in the lessons are included with the course, and interactive review questions help reinforce what you've learned. Selected videos are also provided ready to be downloaded for viewing on your iPhone, iPod, or other compatible mobile device. This Adobe-Approved title is structured around the objectives of the Visual Communication using Adobe Photoshop CS5 exam at the Adobe Certified Associate level. Note from the Publisher After this product was released we discovered that its master disc contains a small programming error that prevents video from playing on those rare machines whose display resolution is set to a small size (1024 x 768 or smaller)....
